Experience

Khaitan & Co.

– Bengaluru, KA, India

Digital and Innovation Team | June 2025 + Ongoing since March 2026

- Improved AI-powered clause extraction pipelines to enhance contract analysis efficiency
- Worked on internal doc automation workflows to streamline document processing
- Developed prompt engineering workflows for legal use cases to improve accuracy in legal document generation
- Currently working on:
 - AI agent workflows
 - Prompt engineering for structured legal tasks
 - Testing and evaluating LLM outputs using Python scripts
 - Experimenting with LLM-based systems for legal workflows

Ayam Pandey

LEGAL- TECH PROFESSIONAL

Aluma Solutions (Dubai-based Legal Tech Startup)

– Remote

Freelance LegalTech Professional | December 2025 - Current

- Works on implementation of legal tech tools across the Middle East (including LawVu)
- Undergoing tool training and implementation workflows
- Working with founder + development team on a legal spend management system
- Focus areas:
 - Validation logic
 - QA and testing
 - Business rules
 - Workflow structuring

Legal+AI (US-based Legal Tech Venture)

– Remote

Freelance LegalTech Professional | November 2025- Current

- Designed structured LLM workflows tailored for specific legal use cases
- Enhanced consistency and minimized variability in AI outputs for greater reliability
- Developed prompt engineering playbooks to guide project teams in effective AI usage

Latham & Watkins

– Remote

Mergers & Acquisitions Intern (Virtual Simulation) | January 2025

- Analyzed transaction documents in M&A simulations, identifying key commercial, regulatory, and risk allocation clauses to inform strategic decisions.
- Recommended clause inclusions and modifications to align contract positions with deal strategy and mitigate risk.
- Conducted market research to identify potential acquisition targets.
- Assisted in preparing due diligence documents for ongoing transactions.
- Collaborated with legal teams to review contract terms and agreements.

Clifford Chance

– Remote

Cyber Security Intern (Virtual Simulation) | July 2023

- Researched legal and regulatory issues related to cybersecurity incidents and cross-border data breaches to inform compliance strategies.
- Assessed breach case studies, mapping potential claims, notifications, and response strategies to ensure adherence to applicable laws.

SIDBI

– Jaipur, RJ, India

Legal Intern | January 2023

- Analysed audit reports and financial documentation to support legal assessments.
- Examined banking practices to uncover potential legal issues.
- Conducted forensic examination of working capital facility to assess compliance and risk.

Judicial Training & Research Institute

– Lucknow, UP, India

Legal Intern | July 2022

- Conducted research on legal matters under the supervision of ADJ Kushalpal Srivastava.
 - Drafted case summaries and legal analyses to aid in court presentations.
 - Applied critical thinking to evaluate case studies, enhancing understanding of legal precedents.
-

Ayam Pandey

LEGAL- TECH PROFESSIONAL

Rajasthan State Human Rights Commission

– Jaipur, RJ, India

Summer Legal Intern | June 2022

- Researched statutes and legal provisions to inform case strategies.
 - Documented evidence for human rights cases to support legal actions.
 - Contributed to report preparation and analysis, enhancing clarity of findings.
-

Licenses & Certificates

- Completed "**Complete Python Developer in 2023: Zero to Mastery**" from **Udemy**, demonstrating proficiency in Python and analytical skills.
 - Earned a **CSS Certificate from HackerRank**, indicating skills in Cascading Style Sheets.
 - Achieved the "**Python (Basic) Certificate**" from **HackerRank**, confirming fundamental Python programming knowledge.
 - Obtained "**Python for Data Science, AI & Development**" certification from **IBM**, showcasing skills in Python, analytical thinking, and critical thinking for data science and AI applications.
 - Earned the "**Building AI-Powered Chatbots Without Programming**" certification from **IBM**, demonstrating critical thinking and analytical skills in developing AI chatbots using IBM Watson.
 - Completed the "**Introduction to Artificial Intelligence (AI)**" certification from **IBM**, indicating foundational knowledge of Artificial Intelligence and critical thinking with IBM Watson.
-

Achievements & Participation

- Received the **Academic Excellence - X award** (G.D. Goenka Public School, Apr 2018) from the then Home Minister of India for outstanding academic performance in Class 10th.
 - Served as the **Sports Co-coordinator** in the NFSU Sports and Cultural Committee, demonstrating leadership, organisational, and event management abilities.
-
